

Exhibit 7

**STATE OF NEW YORK
TOWN JUSTICE COURT
TOWN OF AMHERST**

**HONORABLE KARA A. BUSAGLIA
TOWN JUSTICE
TOWN OF AMHERST
COUNTY OF ERIE**

In the matter of the application by
Investigator Robert J. Peinkofer for a
Search Warrant to search the premises of
[REDACTED] Town of Amherst
County of Erie, State of New York

**APPLICATION
FOR
SEARCH WARRANT**

The premise is known by the street address of [REDACTED] Amherst, New York 14221. It is situated in the Town of Amherst, County of Erie, State of New York. According to documents maintained by Erie County, NY, the property is owned by Mr. [REDACTED]. The property is identified by SBL number is [REDACTED]. It is bounded on the south-west by [REDACTED] and to the north by [REDACTED]. On the north east, by property owned by [REDACTED], and on the south-west, by property owned by [REDACTED]. The premise is a single-family dwelling and has an attached two-car attached garage. The house has a tan brick front with a white double garage door, bearing the number [REDACTED]. There is a white shingled A frame portion directly above the large family room window. The home is landscaped with several large green shrubs to the left and right of the front door. The concrete driveway has visible cracks with grass growing from those cracks. There is also a storm sewer grate located at the foot of the driveway on [REDACTED] directly in the center of the driveway at the approach. The areas to be searched are the entire premise to include the living room, kitchen, all bedrooms, sunroom, home office, garage, computer, filing cabinets, desk area with any filing cabinets or bins, and all areas conducive for storing records, as well as the entire basement and contents thereof. A photograph of the premises and Erie County documents identifying this premise are attached as **EXHIBIT 1**.

I, INVESTIGATOR ROBERT J. PEINKOFER, BEING DULY SWORN, DEPOSE AND STATE:

1. That I am the applicant herein and I am a Police Officer as specified in the New York State Criminal Procedure Law (CPL) 690.05(1) and defined in CPL 1.20(34) (j) in that I am an Investigator with the New York State Department of Environmental Conservation, (NYSDEC) Division of Law Enforcement, (DLE) Bureau of Environmental Crimes Investigation, (BECI). As such, I am empowered to make arrests for, among other offenses, offenses enumerated in the New York State Environmental Conservation Law (ECL) and Title 6 of the New York Code Rules and Regulations (6NYCRR). I am assigned to investigate allegations which involve the alleged offenses of the ECL, including the illegal possession of wild animals, endangered and threatened species, and dangerous wildlife, as those terms are defined in the ECL and 6NYCRR. I have been a sworn member of the New York State Environmental Conservation Police since 1996. I have been assigned to Richmond County as well as, Niagara, Erie, Wyoming, Chautauqua, Cattaraugus and Allegany County as an Environmental Conservation Officer. I was promoted to Environmental Conservation Investigator in early 2018, where I am assigned to investigate major cases in Niagara, Erie, Wyoming, Chautauqua, Cattaraugus and Allegany Counties. I have received training in and have over twenty-two years of experience, enforcing laws and investigating offenses, including offences of the ECL and 6NYCRR as they relate to wild animals, endangered and threatened species, and dangerous wildlife.

2. Based on personal knowledge, information and belief described herein, and documents annexed hereto, there is reasonable cause to believe that property of the kind and character described in CPL 690.10 sub 2. (i.e.), property that is unlawfully possessed and CPL 690.10 sub 4 (i.e.), property that constitutes evidence or tends to demonstrate that an offense was committed in

New York, can be found at [REDACTED] Amherst, NY 14221. More particularly, there is reasonable cause to believe that property, illegally possessed, including six (6) Serval, and two (2) Caracals can be found at [REDACTED]. In addition, there is reasonable cause to believe that property which will constitute evidence of an offense will also be found at [REDACTED] Amherst, NY 14221. All contrary to ECL §11-0512-1. a, which states: "It shall be prohibited for any person to: knowingly possess, harbor, sell, barter, transfer, exchange or import any wild animal for use as a pet in New York state;" ECL §11-0512-1. a, is punishable by ECL § 71-0924. Specifically, in the case of the sale of any wild animal for use as a pet, the level of the offense depends on the value of the wild animal. Subsection 1 of ECL 71-0924 applies to a value of two hundred fifty dollars or less and is a violation. Subsection 2 applies to a value of more than two hundred fifty dollars but does not exceed one thousand five hundred dollars, and is a misdemeanor. Subsection 3 applies to a value of over one thousand five hundred dollars, and constitutes class E felony under the provisions of the penal law.

THE FOLLOWING REPRESENTS THE GROUNDS FOR MY BELIEF: In support of our applicant's assertion as to the existence of reasonable cause, the following facts are offered:

3. Christopher D. Casacci (DOB 01 [REDACTED] 1982), possesses an Importers License issued by the United States Fish and Wildlife Service (USFWS). This license authorizes Casacci to import/export wildlife for commercial purposes. His license number (Identifier number) is 112125203. Pursuant to this license, Casacci has made five separate declarations to the USFWS, this calendar year, in which he lists his residence as [REDACTED], Amherst, NY. These declarations were made on January 25, 2018; February 15, 2018; March 23, 2018; May 10, 2018; and June 6, 2018. The documents containing these declarations indicate that Mr. Casacci

imported a total of 30 wild animals, pursuant to his Importers License, through John F. Kennedy international Airport in Queens, NY.

4. Specifically, Casacci imported two (2) Caracals on January 25, 2018; five (5) Caracals and two (2) servals on February 15, 2018; four (4) Caracals and three (3) servals on March 23, 2018; seven (7) Caracals on May 10, 2018; and seven (7) servals on June 6, 2018. In summary, between January 25 and June 6, 2018 Casacci imported eighteen (18) Caracals and twelve (12) servals. The five "Declaration for Importation or Exportation of Fish or Wildlife" documents are attached as **Exhibit 2**.

5. On November 22, 2017, Casacci applied to the NYSDEC, for a license to collect or Possess, for Education/Exhibition purposes, one (1) female Caracal. In his application he identified his address as [REDACTED], Amherst, NY. This application was denied on November 30, 2018. It was denied because NYSDEC does not issue licenses for this species for this purpose. In correspondence from NYSDEC to Casacci, dated November 30, 2017, the NYSDEC notified Casacci that his application was denied, writing in part: "New York State law/regulation does not authorize possession of the species for the requested activity." The November 30, 2018 denial is attached as **Exhibit 3**.

6. On December 14, 2017 Casacci applied to the NYSDEC, for a License to Collect or Possess, for Education/ Exhibition purposes, one (1) male "Caracat – Caracal/Domestic cat cross." In his application he again identified his address as [REDACTED] Amherst, NY. This application was denied on December 19, 2017. It was denied because NYSDEC does not issue a license for this species for this purpose. In correspondence from NYSDEC to Casacci, dated December 19, 2017, the department notified Casacci that his application was denied, writing in

part: "A Department license is not required for the species or activity requested." The December 19, 2017 denial is attached as **Exhibit 4**.

7. The NYSDEC does not issue any permit or license to possess, harbor, sell, barter, transfer, exchange or import any wild animal for use as a pet in New York state. In fact, as stated above in paragraph 2., any such activity is strictly prohibited by ECL §11-0512-1. a.

8. On June 4, 2018, Casacci applied to the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS) for a Class B Dealers license. A Class B Dealers License authorizes the holder to purchase and resell the animal.

9. On June 21, 2018, Andrea D'Ambrosio, Animal Care Inspector, of the USDA, APHIS, and Keri Lupo, Veterinary Medical Officer, also of APHIS, conducted a pre-license inspection at [REDACTED] Amherst, NY. In the report Ms. D'Ambrosio generated, upon the conclusion of the inspection, she indicated that she visually observed six (6) Serval kittens and two (2) Caracal kittens. Upon entering the sunroom where the cats were housed, Ms. D'Ambrosio states that she noticed a strong odor, distinctly different from normal smells of these species. She also stated that she observed one small thin Serval in a crate that appeared lethargic, with watery eyes, and diarrhea. Ms. D'Ambrosio advised Mr. Casacci to immediately seek treatment by a veterinarian. Ms. D'Ambrosio further stated, in her report, that conditions were not conducive for proper care and storage of Caracal and Serval cats. The Report of Animal Care Inspector D'Ambrosio is attached as **Exhibit 5**.

10. Through my investigation it was revealed that Casacci operates a website at Exoticcubs.com. On his website, Casacci offers Caracal kittens, both male and female for \$10,000.00 each, and Serval kittens, both male and female, for \$7,500.00 each. The website shows

he is a licensed USFWS importer that specializes in providing Serval and Caracal kittens, as pets, for loving homes. His website describes that Servals make excellent pets and bond closely with their owner and family. Furthermore, Casacci indicates these cats can grow to 20-40 lbs. and stand from 16" to 25' tall. He strongly recommends Servals be neutered/spayed to reduce hormonal aggression. He describes Caracals as being very difficult to breed but make excellent pets and are similar to Servals. Casacci says these cats are in the lynx family and look like a miniature cougar with large ear tufts. They tend to be very affectionate and have a slightly better demeanor than Servals. These cats are 30-50 lbs. but stand only 16" tall. He also describes how the Caracal is known for its hissing and opines that many think this is very aggressive, but he describes it as a form of meow. His website: <Http://www.exoticcubs.com> has 16 YOUTUBE videos showing: "Feeding & Care for Caracals and Servals." In one video regarding feeding, he strongly urges being very careful because these young cats hiss and can be very aggressive while eating. His website also has a gallery of 13 photos of individuals who recently purchase one of his wild animals.

11. Based upon the website described above, which advertises the sale of Caracals and Serval kittens for sale as pets, and based upon the fact that thirty (30) animals have been imported since January 2018 and that only eight were present on June 21, 2018, there is reasonable cause to believe that some animals have been sold as pets.

12. Based upon the declarations made to the USFW Service, and the applications to the NYS DEC and USDA, all using the address of [REDACTED] Amherst, NY and based upon the USDA pre-license inspection at [REDACTED] there is reasonable cause to believe that the business is being operated out of [REDACTED]. Based on reasonable cause to believe the

business is being operated at [REDACTED], there is reasonable cause to believe business records exist there.

13. Furthermore, based upon the offer of sale and the web based advertisements, as well as statements made on the website by Casacci - including the statement in which he says, "Hi, this is Chris with exotic cubs. Here we have a ten-week-old female Caracal kitten for sale." - there is reasonable cause to believe that business records exist at [REDACTED], including records contained electronically on a computer.

14. Based on personal knowledge, information and belief described herein, and documents annexed hereto, there is reasonable cause to believe that the eight (8) wild animals remain and are illegally possessed at [REDACTED] Amherst, NY 14221. Specifically, two (2) Caracal cats and six (6) Serval cats.

15. Based on personal knowledge, information and belief described herein, and documents annexed hereto, there is also reasonable cause to believe that business records, that would that constitute evidence or tends to demonstrate that an offense was committed in New York, can be found at [REDACTED], Amherst, NY 14221.

16. Your applicant wishes to advise the court that if a search and seizure order is issued, as a result of this application, the department intends to immediately transport these wild animals to a licensed Veterinarian for care and the wild animals will be relocated with organizations that are legally entitled to possess them. Specifically, it is intended that the wild animals be transported and housed with the Safe Haven Wildlife Sanctuary of 400 Nevada Route 400, PO Box 184, Imlay, NV and Turpentine Creek Wildlife Refuge of 239 Turpentine Creek Lane, Eureka Springs, AR. Your applicant also wishes to advise the court that finding an appropriate disposition for each of

the regulated animals has been an arduous task and that the scheduling of the transfer and transportation of the regulated animals has been complicated.

WHEREFORE, YOUR APPLICANT RESPECTFULLY REQUESTS

That the Court issue a Warrant and Order of Seizure, in the form annexed hereto, authorizing the search of the premises located at [REDACTED], Amherst, NY 14221, Erie County, State of New York and directing the seizure of six (6) Serval kittens, two (2) Caracal/Caracats and any other illegally possessed regulated wild life. Your applicant also respectfully requests the Court authorize the search for and seizure of business records tending to demonstrate the offense of the harboring, sale, barter, transfer, exchange or importation of any wild animal for use as a pet. Those business records to include, but not be limited to, paper or electronic, receipts, correspondence, invoices, check book registers, and bank statements, and directing that an inventory of such seized materials be brought before this Court; and for such other and further relief as this Court may deem proper. No previous application in this matter has been made in this Court or to any other Judge, Justice or Magistrate.

ROBERT J. PEINKOFER
Investigator/NYS DEC Police

New York State Department of Environmental Conservation

NOTICE OF APPLICATION/LICENSE DENIAL
This is NOT a License

Date: 11/30/2017

License#: 1795

License Type: License to Collect or Possess - Education/Exhibition

Applicant: Christopher D Casacci

Owner ID: 1778188

Amherst, NY 14221

Department has denied your license application for the following reason(s):

- 1) New York State law/regulation does not authorize possession of the species for the requested activity.

(Please note: Your original application is enclosed)

Additional Information:

The Department of Environmental Conservation (DEC or Department) has determined that possession of certain species of animals, including caracals (*Caracal caracal*), presents a danger to the health or welfare of the people of the State, as well as to indigenous fish and wildlife populations.

Consistent with and pursuant to the provisions of Environmental Conservation Law §§11-0303, 11-0305, and 11-0511, the Department will not be able to issue you a license to possess or exhibit caracals in New York State. Thank you.

Agency Contact:

TERESA RUIZ
Special License Analyst
625 Broadway

License to Collect or Possess Education / Exhibition Application

For more information on this license visit www.dec.ny.gov/permits/25005.html

STATUTORY AUTHORITY: Environmental Conservation Law Section 11-0515 (1) and 6 NYCRR Part 175.

The Department of Environmental Conservation (DEC) may issue a License to Collect or Possess to qualified individuals to collect or possess fish, wildlife, shellfish, crustacea, protected insects, birds' nests or eggs. This application is only for the following purposes: Education/Exhibition.

Individuals applying for a license to collect or possess migratory birds must possess a valid Federal Permit from the U.S. Fish and Wildlife Service, for the requested activity. Individuals applying for a license to exhibit mammals to the public must possess a U.S.D.A. license under the Animal Welfare Act. Applications for licenses for educational institutions should be completed by the individual authorized by the institution to supervise all activities listed on the application.

The license is valid for one year or as noted on the license. The Department in its discretion may require an applicant to submit written testimonials from two well-known persons and to file a bond of two hundred dollars.

INSTRUCTIONS FOR LICENSE AMENDMENTS

When applying for a license amendment please only include information on the application pertaining to the specific amendment or amendments you are requesting. Please do not include previously submitted information already authorized under your license. If you are applying for renewal with amendment, please include your annual report required per your license conditions.

The following addresses are provided for your convenience.

Describe, in detail, the purpose for which you are applying for this license. Please include a description of your education program and the conservation message you wish to convey. Also, if applicable provide the name and address of the educational organization that sanctions your proposed activities or the organization that employs you. If more space is needed, attach additional sheets.

I am hoping to work with Nickel City Reptiles with regards to their school outreach programs (<http://www.nickelcityreptilesandexotics.com>), and Buffalo Animal Adventures (www.buffaloanimaladventures.net). The goal is to help educate the public with regards to cat conservation and care in NYS.

Please provide the common name, scientific name (Genus species) and the total number, male and/or female, of the species you wish to collect or possess.

NOTE: Endangered or Threatened Species may NOT be included on this application.

Common Name	Scientific Name	Total	
		Male	Female
Caracal	Caracal Caracal	1	

Check the appropriate category

Species WILL BE collected from the wild in NYS

Species WILL NOT BE collected from the wild in NYS

If you are applying for a license to possess species which will not be collected from the wild in New York, describe how and from where you will obtain the species.

Please include the name, address, telephone number and License Name and Number of the person who legally possesses the species you wish to obtain.

(Rehabilitation animals require a letter from a veterinarian stating the requested wildlife is permanently disabled and non-releasable and if applicable their license number and type). If more space is needed, attach additional sheets.

Species	Name of Dealer or Rehabilitator & Telephone Number	State and Federal License #
Caracal	Anna Kuzmina, VIPLeo	N/A CITES Registered Import

Describe, in detail, the location, length of possession and method(s) you will use to collect the species you listed in this application. Include the type and number of traps, type and length of nets, etc. Individuals conducting activities on lands administered by the State or on conservation easement lands shall apply for and receive a Temporary Revocable Permit authorizing the use of those lands for such purpose prior to conducting activities. The application for a Temporary Revocable Permit can be found at: http://www.dec.ny.gov/docs/lands_forests_pdf/trappfrm.pdf

/A-Import through airlines from Russian breeder. Federal licensing is NOT required for caracal possession or ownership.

Describe the humane measures you will employ to ensure humane treatment for the animal(s).

The animal will receive care through Dr. Michael Borowiec, DVM, located at [REDACTED] for all veterinary care, vaccinations, and regularly required visits. I am a licensed laboratory animal technologist (LATG), familiar with IACUC (Animal Care and Use Committee) implementation and am competent as it pertains to feline ethics. The animal will also receive a custom diet including Wildtrax brand supplement, ZuPreem canned, and a variety of fresh chicken/turkey.

List the dates and locations where the listed species will be exhibited, or check the box for static year round exhibit.

Dates	Location
<input type="checkbox"/> Check box if animals exhibited at permanent facility year round	TBD Williamsville School District (Heim Elementary/Middle)
	TBD Nickel City Exotics Outreach Events

Describe the housing and/or holding facilities that you will provide for the animal(s) to ensure safe captive conditions and prevent direct contact with the public at all times. If more space is needed, attach additional sheets.

The housing facility is a spacious sun room attachment to with walk in door and open air access in the summer, with ambient temperature heating in the cooler months. Enrichment type toys with no choking hazard will be provided, as well as adequate space and areas to climb/jump. The area is locked and is not accessible to the public.

Do you wish to designate agent(s) under your license to assist you in the care of listed animals? If YES, please complete designated agent form.

Laura Wade

DVM, Dipl. ABVP (Avian)

June 5, 2009

Dear FDA official,

On May 20, 2009, I visited Christopher Casacol's new *Neon Mice* facility in Niagara Falls, NY. Chris provided me a complete tour of the facilities and I was able to inspect a representative sample of mice and rats in the colony. The facility was well-designed, very clean and the animals were in good condition and well-cared for. Examples of Chris's attention to details included the presence of a wall-mounted hand-sanitizer and accurate genealogy markings on all animal cage bins. Employee safety was excellent as care staff were noted to be wearing masks and gloves.

In addition, Chris provided me with several of his ACLAM-derived guidelines and protocols for anesthesia, gonadectomy, and tattooing and showed me his organized medical record system. He acquires mice from a reputable company that does excellent disease screening. The mice did not appear to exhibit significant cannibalism, tumors, malocclusions, limb deformities or signs of infectious disease. The does appeared to produce significantly large litters and neonatal pups exhibited milk spots. The juveniles exhibited good hair coats and a very limited number of adults exhibited scratch marks from cagemates (due to lack of hair protection from the fluorescence mutation). Unlike the majority of his colleagues in this industry, Chris is extremely knowledgeable and appears to have thought through all important details necessary for a successful rodent breeding business. He is eager to maintain twice-annual veterinary inspections. Although not required, Chris is interested in following USDA guidelines, which I think will add credibility to his business. I have worked with several other area facilities as a consultant in a similar fashion, including a USDA-accredited pet store in Buffalo. Currently, *Neon Mice* would meet USDA compliance in regards to the facility and animal care requirements. In my opinion, his facility is on par with the Department of Laboratory Animal Medicine at the University of Buffalo.

My practice is exclusively devoted to exotic pets and I completed a two-year exotic animal residency (full CV available on my website under "About Dr. Wade"). In addition, I am a USDA-accredited veterinarian. Although much of my work is with individual companion animals, I have a growing flock and breeding colony clientele.

Feel free to contact me with any questions or concerns you might have.

Sincerely,

Laura Wade, DVM, Dipl. ABVP (Avian)

The cat is NOT a treat to NYS wildlife or the public in any capacity. See attached.

Do you wish to designate agent(s) under your license to assist you in the care of listed animals? If YES, please complete designated agent form.

Yes No

Do you possess valid State and/or Federal licenses or permits which are required for your proposed activity? If YES, please attach photocopies of relevant licenses or permits to the application.

Yes No

DEC Agent,

Please note that the animal in question will be neutered, and thus cannot breed with wild populations, and will not interact with NYS wildlife in any capacity. Further, the animal is a hybrid with a domestic cat, and is genetically sterile. Caracats are only slightly larger than a standard domestic cat and have behaviors similar to a small dog. The cat will be tame, bottle fed, and fully declawed by a licensed veterinarian. As such, even if escaped, it poses less threat to NYS wildlife than a normal cat. In addition, their smaller size makes them comparable to a domestic cat such as a Maine Coon. They are far less of a public threat than a German Sheppard or any standard medium size dog breed.

If, for some reason, your tendency is towards a denial, please advise stipulations under which the animal will be allowed. If the license is approved, I will follow whatever stipulations are set forth. As I believe this application to be fully compliant with all aspects of ECL codes 11-0303, 11-0305, and 11-0511.

Thank You,

Christopher Casacci

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Upon entering the sun room where the African Serval and Caracal species were held, there was a very strong odor distinctly different from the normal smells of these species. One small thin serval, microchip # 945000001822989 was maintained in a crate and appeared lethargic, had watery eyes and diarrhea. The applicant stated that the animal had been off in diet consumption that morning and so was being separated. Based on the un thrifty condition of the animal, the applicant was encouraged to call and make an appointment with the attending vet to examine that animal as soon as possible.

The applicant imports the animals in from Africa and usually houses them for a few weeks. The animals receive subsequent vaccination boosters and parasite control at the end buyer's veterinarian. These animals arrive via different shipments but are housed all together in the same sun room with no quarantine or separation in place. The animals are not examined by the applicants attending vet until they receive a health certificate for shipment. At the time of the pre license, these animals have been at the facility for several additional weeks and may be due for booster vaccinations or additional parasite treatment. The applicant should have the animals assessed by the attending veterinarian to determine current health status and if booster vaccines or parasite control are needed due to the young age of the animals.

3.9(a)

FEEDING.

*** Two servals identified as # 945000001866346 and # 945000001822989 were very thin with protruding hip bones, palpable ribs and a concave tuck to the abdomen. These two animals are between 9-11 weeks old and fed two times a day. Weights are not currently being taken and the diet amount is not given based on the condition of the animals. These are very young cats that may need to be fed more frequently in small increments to add body weight and condition. The attending vet was contacted and was under the impression that the applicant had been monitoring weights daily and adjusting the diets as needed for adequate growth. The diet needs to be prepared with

special consideration for the age and growing nutrition needs of these animals.

This inspection and exit interview were conducted with the applicant.

This is the first pre license inspection. Please contact me when you are ready for a second pre license inspection. No regulated activity may be conducted until the pre license process is completed, the license fee has been submitted and a certificate number has been issued.

Recordkeeping was discussed and the required information that would be expected once the applicant is licensed.

**STATE OF NEW YORK
TOWN JUSTICE COURT
TOWN OF AMHERST**

**HONORABLE KARA A. BUSAGLIA
TOWN JUSTICE
TOWN OF AMHERST
COUNTY OF ERIE**

In the matter of the application by
Investigator Robert J. Peinkofer for a
Search Warrant to search the premises of
[REDACTED] Town of Amherst
County of Erie, State of New York

SEARCH WARRANT

TO: Robert J. Peinkofer and any other sworn member of the New York State Department of Environmental Conservation, Division of Law Enforcement, other employees of the Department of Environmental Conservation, and other authorized persons accompanying them, including, but not limited to, members, employees, representatives and/or agents of the United States Fish and Wildlife Service; the United States Department of Agriculture; World Animal Protection; Safe Haven Wildlife Sanctuary; Turpentine Creek Wildlife Refuge; Dr. Kurt Volle DVM. Application having been made before me by Investigator Robert J. Peinkofer, of the New York State Environmental Conservation Police, with respect to entering the premises located at [REDACTED], Town of Amherst, County of Erie, State of New York, identified as SBL number is 68.05-5-14. The premises being bounded on the south-west by [REDACTED] and to the north by [REDACTED], on the north east, by property owned by [REDACTED] and on the south-west, by property owned by [REDACTED]. It is a single-family dwelling and has an attached two-car attached garage. The house has a tan brick front with a white double garage door, bearing the number [REDACTED]. There is a white shingled A frame portion directly above the large family room window. The home is landscaped with several large green shrubs to the left and right

of the front door. The concrete driveway has visible cracks with grass growing from those cracks. There is also a storm sewer grate located at the foot of the driveway on [REDACTED] directly in the center of the driveway at the approach.

Reasonable cause having been established that property of the kind and character described in CPL 690.10 sub 2. (i.e.), property that is unlawfully possessed and CPL 690.10 sub 4 (i.e.), property that constitutes evidence or tends to demonstrate that an offense was committed in New York, can be found at [REDACTED] Amherst, NY 14221. More particularly, there is reasonable cause to believe that property, illegally possessed, including six (6) Servals, and two (2) Caracals can be found at [REDACTED]. All contrary to ECL §11-0512-1. a., there is also reasonable cause to believe that property which will constitute evidence of an offense will also be found at [REDACTED] Amherst, NY 14221.

YOU ARE HEREBY AUTHORIZED TO:

1. Enter and search the above premises and seize six (6) Serval kittens and two (2) Caracal kittens and any other illegally possessed regulated wild animals.
2. Seize business records tending to demonstrate the offense of the harboring, sale, barter, transfer, exchange or importation of any wild animal for use as a pet. Those business records to include, but not be limited to, paper or electronic, receipts, correspondence, invoices, check book registers, and bank statements.

3. Document by photograph, drawings, and other means, any items seized, and directing that an inventory of such seized materials be brought before this Court; and for such other and further relief as this Court may deem proper.
4. To enter and search the premises between the hours of 6:00 A.M. and 9:00 P.M. and to remain until the work is completed.

This warrant must be executed not more than ten days after the date of its issuance and the warrant and an inventory of the property seized pursuant thereto must be returned to this Court without unnecessary delay.

HONORABLE KARA A. BUSCAGLIA

AMHERST TOWN JUSTICE

STATE OF NEW YORK
TOWN JUSTICE COURT
TOWN OF AMHERST

HONORABLE KARA A. BUSCAGLIA
TOWN JUSTICE
TOWN OF AMHERST
COUNTY OF ERIE

In the matter of the application by
Investigator Robert J. Peinkofer for a
Search Warrant to search the premises of
[REDACTED] Town of Amherst
County of Erie, State of New York

SEARCH WARRANT RETURN

I have executed the within Search Warrant as I am herein commanded on the fifth day of July 2018, by making a search in the premise designated in the said search warrant for the property therein described, and find of the said property the articles described in the attached property custody report.

Dated: *Amherst*, New York

10th day of July 2018

Inv. Robert Peinkofer

Investigator Robert Peinkofer, the officer by whom the Search Warrant was executed, do swear that the attached property custody reports contain a true detailed account of all property taken by me on this Search Warrant.

Pursuant to Section 690.05 through 690.55 of the Criminal Procedure Law, the temporary retention of said property being deemed necessary in the furtherance of justice. I direct that said property, with the exception of the live animals, be held in custody of the New York State Department of Environmental Conservation which executed the Search Warrant, subject to the Order of this Court or of any other Courts in which the offense can be tried. I direct that the live animals be held in custody of the Safe Haven Wildlife Sanctuary of 400 Nevada Route 400, PO Box 184, Imlay, NV and Turpentine Creek Wildlife Refuge of 239 Turpentine Creek Lane, Eureka Springs, AR.

Dated: *Amherst*, New York

10th day of July 2018.

Inv. Robert Peinkofer

HON. KARA A. BUSCAGLIA
